

Product Specification

Vetregard®

Feed material

Version: 2014 05 21 Vetregard

Product description

Vetregard is a brewer's yeast cell wall product from *Saccharomyces cerevisiae* only. It is rich in (1, 3)-(1, 6) β -D-glucan and mannan oligo-saccharides (MOS).

Polysaccharides

| | |
|---------------------------------|-----------|
| (1, 3)-(1, 6) β -D-glucan | 25 – 30 % |
| Mannans (MOS) | 20 – 25 % |

Analytical constituents and levels

| | |
|---------------------|--------|
| Crude protein | 25.0 % |
| Crude oils and fats | 7.5 % |
| Crude fiber | 0.5 % |
| Crude ash | 4.0 % |
| Moisture | 6.0 % |

Amino acids

| | |
|------------|-------|
| Lysine | 2.0 % |
| Methionine | 0.5 % |

Minerals

| | |
|----------|-------|
| Calcium | 0.2 % |
| Phosphor | 0.5 % |
| Sodium | 0.3 % |

Physical & Chemical characteristics

| | |
|-----------|-------------------------|
| Structure | Fine powder |
| Colour | Beige to light brown |
| Odour | Typical |
| Density | 500 kg / m ³ |

Packaging

25 kg paper bags PE coated or big bags

Shelf life

24 months

Recommended dose

1 - 5 kgs per ton feed
